Innosuisse – Swiss Innovation Agency
Florence von Gunten  
Co-Founder YLAH, Psychologist

Florence von Gunten is a trained psychologist and entrepreneur. She brings expertise in psychotherapy research and practice through her nursing background, in-depth studies and scientific activities at the University of Bern and Bristol (UK). Currently, she and her team are developing the YLAH web application for patients and therapists, thereby enabling an approach to psychotherapy that is new to Switzerland, so-called blended psychotherapy.

Dr. phil. Barbara Studer  
Neurpsychologist, Teacher & CEO hirncoach GmbH

Dr. phil. Barbara Studer is a neuropsychologist, lecturer and entrepreneur. She does research and teaches at the University of Bern and other institutions. Her professional focus lies on learning, motivation, and creativity. 2020 she founded her own company hirncoach (hirncoach.ch), with which she fosters brain and mental health of younger and older people with evidence-based methods. She is also a speaker (studertalk.ch) and supports people to exploit their full potential.

Léa Miggiano  
Co-Founder Carvolution AG

In 2018, Léa Miggiano founded the company Carvolution at the age of 23. The vision behind the car subscription is to make it easier and cheaper for everyone to drive their own car. Today, she is CMO & Co-Founder of this company. Since its incorporation, over a thousand cars are on the Swiss roads. In June 2022, Carvolution wins first prize in the services category at the SEF Award (Swiss Economic Forum). Léa Miggiano studied business administration at the University of St. Gallen and in Amsterdam.
