

Female Founders

FemTech
-♥- Edition

Did you know that healthcare and medicine were originally not developed with women in mind?

Join us to learn about entrepreneurship and women's health from FemTech start-up founders and experts

Aware of the **gender data gap** in healthcare? Want to know more about a lucrative growing market? Still today, we lack knowledge about women's unique healthcare needs. **FemTech start-ups** are about to change this! Join us to discuss **entrepreneurship & FemTech** with **experts** and **founders** whilst learning more about innovations in women's health:

Learn how **probiotics** can influence **fertility treatments**, **vaginal infections**, and **pregnancy**

Know **women's heart-attack symptoms** and empower yourself and your loved ones

Get to know **natural alternatives** for **pain-relief** during **menstruation**
